On/Off Status & Control In One Package

FEATURES

- Reduce the number of installed components...saves time and space
- On/off status and command relay in a single labor and space saving device
- Cost-effectively monitor start/stop, unit vents, fan coils, exhaust fans, and other loads where belt loss is not a concern
- H740 and H940 feature a SPDT command relay
- No calibration required...easy setup and operation
- One device to install...reduces installation charges
- Easier to install than differential pressure switches...no tubing needed
- Removable mounting bracket for installation flexibility
- Bracket on H930, H940, and H950 can be installed in three different configurations...added flexibility
- 5-year warranty

DESCRIPTION

The Hawkeye Relay Combination Series combines an on/off status sensor and command relay in one package, saving the labor, wire runs, and space required to mount a separate relay. The switch and relay (not electrically connected) are in the same housing, saving space and cost. It is ideal for monitoring and controlling motors where belt loss is not a concern.

APPLICATIONS

- Monitoring direct drive units, exhaust fans, and other fixed loads
- Monitoring on/off status of electrical loads
- Starting/stopping motors
